

BDT 0.00x Out of Stock

FEATURES :

- Operating distance: 16mm±5mm
- Switch withstood-voltage: 100VDC
- Load current: 500mA
- Life time: 1,000,000 times
- Switch output: NC
- Applies to non-steel back door or window

ZKTeco AS31 Door or Window Sensor Specification:

Device Mechanism:	Magnetic Contact Sensor / Status Detector
Output Configuration:	Normally Closed (NC) Switch Output
Operating Detection Distance:	16mm ± 5mm
Maximum Electrical Load:	500mA load current capacity
Switch Withstand Voltage:	Up to 100VDC
Hardware Lifetime:	Rated for 1,000,000 opening/closing operations
Surface Target Compatibility:	Non-steel backing, wooden, plastic, or aluminum frames
