

- IC Card @125kHz Proximity Card
- Read only

Chip Type:	EM4100 (Read-Only RFID chip)
Data Transmission:	Contactless, powered by the RFID reader (no battery required)
Read Range:	1 to 5 cm (varies based on antenna geometry and reader power)
Data Transfer Speed:	106 kbit/s
Data Integrity:	16-bit CRC, parity, bit coding, and bit counting for reliable data transmission
Storage Capacity:	330 bits (fixed ID, read-only)
Material:	PVC (Durable, lightweight, and flexible)
Dimensions:	85 × 53.5 × 1 mm
Operating Temperature:	-20°C to +60°C (Suitable for various environments)
Weight:
