

BDT 21,000.00 ✓ In Stock

FEATURES :

- Vehicles and pedestrians detection
- Supports RS485 communication, allowing upgrade and debug with a PC
- Flexible installation
- Works normally under ambient weather conditions (IP67)
- Detection distance adjustable from 1m to 6m

01711-766062, 01711-461346

ZKTeco VR30 VEHICLE DETECTION Specification:

Radar Technology:	79GHz FMCW Millimeter-Wave Radar / 2T3R Antenna MIMO
Detection Distance:	0 to 7 Meters (Fully Adjustable)
Field of View (FOV):	120° Azimuth (Horizontal) & ±10° Elevation (Vertical)
Detection Accuracy:	Greater than 99% for both vehicles and pedestrians
Communication Interfaces:	Bluetooth, RS485, and Relay Output
Weather & Environmental Resistance:	IP67 Ingress Protection; -40°C to 85°C working temperature
Power Parameters:	DC 12V Operating Voltage / ≤1.3W Power Consumption
Mobile Configuration App:	ZKEasy Go (Compatible with Android 10+ / iOS 12+)
Dimensions & Weight:	118mm x 78mm x 19mm / Ultra-lightweight at 197g.
